**INCOS Engineering is a fully locally owned and operating company in Western Australia. With staff holding individually up to 30 years of knowledge and experience in the field, INCOS Engineering offers a unique value add to clients and business partners.**

Incos Engineering focusses on smart safety solutions for integrated firefighting systems for offshore brownfield and greenfield platforms, onshore petrochemical as well as specialised marine.

Extending the life of your asset, ensuring equipment is maintained and working within standards such as Australian Standards, NFPA, ISO, Class, IMO defined requirements and any specific site and/or client specification. Understanding that preventative maintenance is essential; Incos Engineering will work together with local personnel to keep your equipment operating at optimal levels and compliant with industry guidelines and certification.

Engineering Consultancy • Projects & Manufacturing • Service & Maintenance • Components & Products
