

We are committed to an operating philosophy based on openness in communication, integrity in serving our customers, fairness and concern for our employees and responsibility to the communities within which we operate.

Our vision is to exceed customer expectations for environmental management.

We are dedicated to creating a profitable business culture that is based on the following principles:

- Integrating environmental management into our everyday operations
- Improving our environmental efficiency (sustainability)
- Helping our customers reduce their carbon footprint

We will

Promote and demonstrate high standards of environmental management to reduce our own environmental impact and influence the same with our suppliers/customers.

Manage our activities to prevent or minimise pollution and impacts on visual amenity, air, water, land, flora, fauna and cultural and heritage values.

Strive to reduce resource consumption and minimise waste generation.

Ensure understanding of environmental requirements and implementation of standards among our employees and sub-contractors.

Respond to the environmental concerns of our customers and the communities in which we operate.

Continuously improve our Environmental performance and systems with the aim to perform to a standard that we can be proud of.

Managing Director

A handwritten signature in blue ink, appearing to read 'Morten Benjaminsen', with a long horizontal flourish extending to the right.
